

Why Choose Stellar?

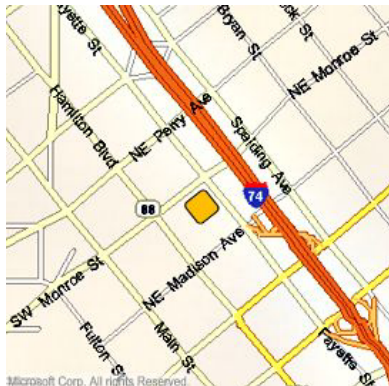

Stability - We have been successfully serving clients in Central Illinois for over 20 years. Stellar can provide you with proven, dependable services to meet both your current and future project needs.

Quality - We employ the people, processes and tools to get the job done right. Stellar's attention to quality means that your project will be completed on time and within budget.

Technical Ability - We employ a full time professional programming, networking and management staff. We have the talent and resources to provide you with intelligent, effective solutions in a timely and cost effective manner.

Business Experience - Our experience spans many industries and businesses both large and small. This means that we "hit the ground running" and are not learning at your expense.

Location - Our convenient location in downtown Peoria means that we are only minutes away from your office. We are available when and where you need us.

Software Development

Solutions

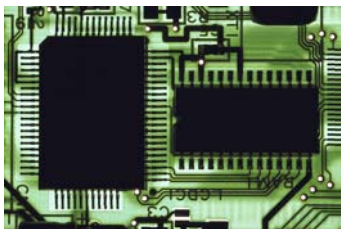

In today's marketplace, companies are constantly striving to gain that competitive advantage.

Whether you are trying to survive an economic crunch or improving your business to meet new demands, automation is central to your success.

Software solutions contribute to the success and profitability of many companies as they continue to expand and grow.

For the past 20 years, Stellar Systems has been helping successful businesses develop software to meet their unique requirements including:

- **Web-Based Applications**
- **Integrated Software Applications**
- **Windows Applications**
- **Database Development**
- **Embedded Systems**

Stellar provides software solutions that are tailored to meet your requirements.

Increased effectiveness

Instead of wasting precious time performing repetitive manual tasks, put your computers to work for you.

Stellar can improve your effectiveness by creating software solutions that automate routine tasks and allow you to use your time more efficiently.

Increased Accuracy

Worrying about whether your reports are complete and accurate can be frustrating. Stellar can bring you peace of mind by providing software that provides you with information that you need and trust.

Decreased Costs

By automating critical business processes you can realize significant cost savings.

Stellar can help you develop the systems you need to remain competitive.

Customer Service

When your software does its job, you and your employees can concentrate on your customers.

Stellar Systems provides software solutions for a wide variety of systems and platforms using the most current and powerful technologies available.
